The
Popular
"USCO"
TREAD
30x3½

\$10.90

THE American public knows that United States Tires are never marketed on "price."

People look to the makers of U. S. Tires for quality traditions. They do not want to see a policy of superiority nibbled away for the sake of a mere price appeal.

So we say this to all those loyal followers of U. S. Tires—

Do not buy the 30 x 3½ "USCO" Tread because of its new price of \$10.90.

Buy it because it

is the greatest money's worth on earth today.

Buy it because of honest quality as against "bargain offers," "inside discounts" and "special trades."

An outstanding product—marked with the maker's name—the retail price quoted in plain figures.

A challenge to the tire-trader who would rather sell you an unknown tire on the basis of "so much off list"—and let you find out its real value afterward.
